

# ADVANCE CARE PLANNING

---

## Why should you do it?

1

It is your right to be cared for in the way you want.

2

Wisconsin is not a next of kin state; your parents are not automatically your agents when you turn 18.

3

You can give direction to your loved ones so they don't have to guess your end-of-life preferences.

4

Accidents and some illnesses happen suddenly; make a plan just in case.
